

Ladders for the world

ALMETAL KOREA

AMK is a leading Korean ladder manufacturer that exports its products around the World and has a very positive reputation with our specialized, unique and vast product line of ladders and scaffolding. We are an ISO 9001 and 14001 Certified company.

Our products are further recognized under Certification from Europe and SG Certification from Japan, complying with safety standards in Europe, EN-131, CPSA in Japan and AS/NZS in Australia/New Zealand. Our products have been thoroughly inspected by technicians in all of our production processes. We are positive that you will be completely satisfied with the quality of our products and service as a partner of ANK.

BACKGROUND

'PICA CORPORATION, our partner company, has given us constant technical advice and assistance in its capacity as the largest ladder manufacturing company in Japan with its extensive experience of 50 years. It should also be noted that Pica Corporation is affiliated with WERNER LADDER CO., LTD., one of the world's leading ladder manufacturers based in the United States.

FUTURE

After undergoing a recent restructuring, we are ready for our second launch. Our mission is to become the best ladder manufacturer in the world. AMK Incorporated is striving to do its best to achieve this. Bringing safety and comfort to our customers is our main goal and we believe that our approach will bring success to AMK. We always take great pride in providing you, our valuable customers, with quality products made with care and safety in mind and giving you the support you need to bring our ladders to your clients.

► Management Ideology

1. Enormous technological improvements
2. Transparency in management
3. Qualification of all employees

ISO 9001

ISO 14001
