

NEW PRODUCT

SA - 5DE

Vi - cat (Sterilization/Deodorization/Fine dust collector)

New product with excellent deodorization / Sterilization ability
It provides a breakthrough way to suppress Virus (COVID-19).

- Power AC 230V ± 10% 50/60Hz 1φ
- Power Consumption 200W Air volume 5CMM Weight 15kg
- Coverage Sm 396 Sm/hour
- Size 295 x 300 x 565 mm
295 x 300 x 470 mm (Excluding fixed bracket and hood)

APPLICATION

Application: Hotel, nursing home, office, performance hall, lecture room, restaurant, gym, school, shopping mall, etc.

CLEAN AIR SYSTEM

ABOUT US

We will start a new 100 year of global company with advanced thinking and aggressive spirit of challenge.

Sejin E&E Co., Ltd. is an electrostatic precipitator (EP, ESP), H.V power supply, power pack, air purifier, ionizer, ozonizer, collector/cell (E.P), etc.

It is a production company specializing in air quality improvement that comprehensively covers everything from design to development and production.

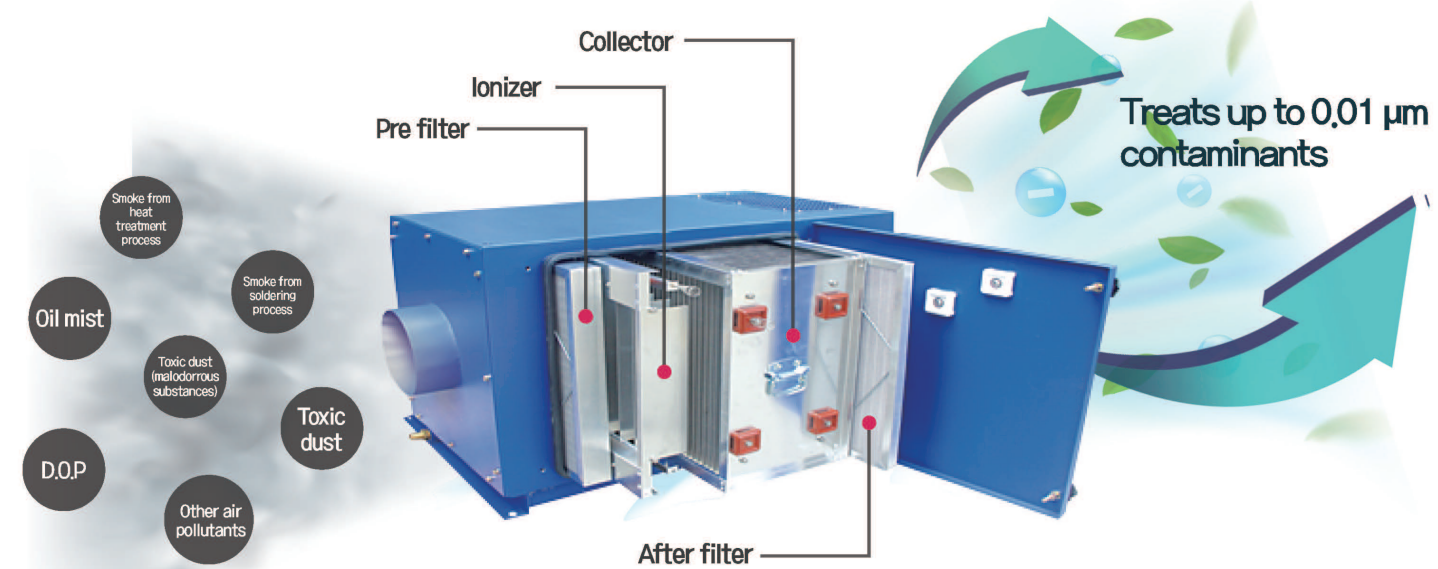

Based on KNOW-HOW, trust and technology accumulated for a long time from product design and mass production.

ISO 9001/ KSA 2001, electrostatic precipitator patent, utility model patent, design patent, etc. It has obtained overseas CE certification and product reports from nationally recognized institutions, supplies finished products and semi-finished products to leading domestic companies, and exports dust collectors and power packs to major foreign countries.

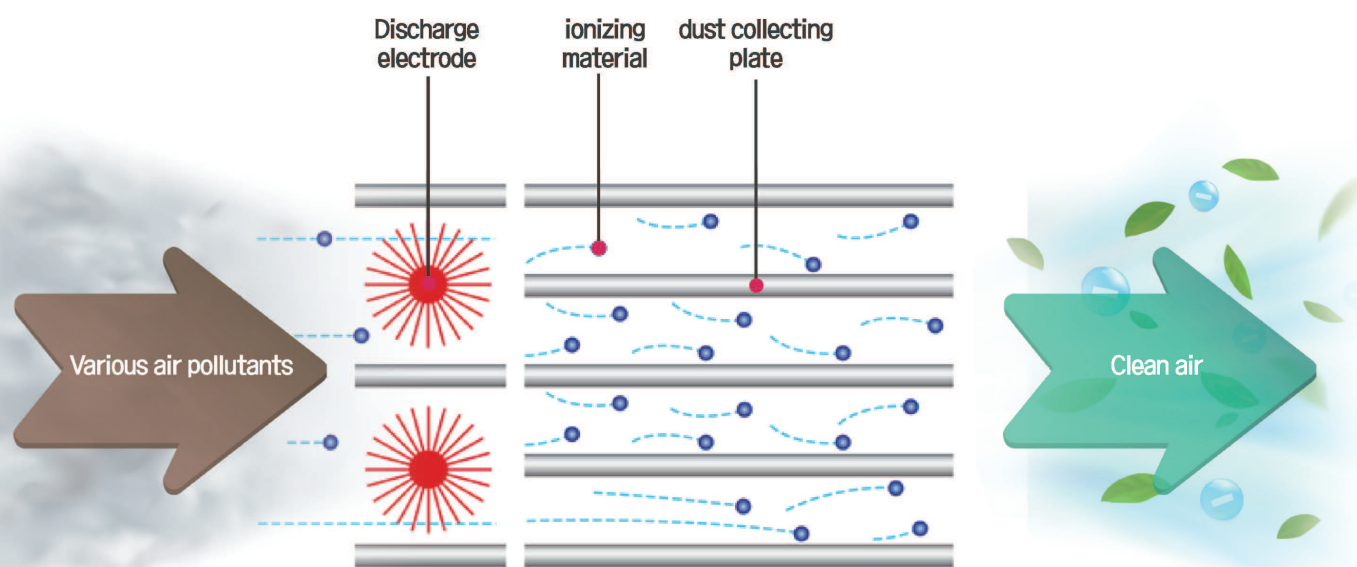

TECHNOLOGY

What is Electrostatic Precipitator?

Principle and structure of electrostatic precipitator

PRODUCT

SA - 30D

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	90kg
Power Consumption	150W	Air volume	30CMM
Size	1080 x 610 x 620 mm (W x D x H)		

SA - 30T

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	135kg
Power Consumption	225W	Air volume	30CMM
Size	1620 x 610 x 620 mm (W x D x H)		

SA - 60D

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	150kg
Power Consumption	150W	Air volume	60CMM
Size	1080 x 1070 x 620 mm (W x D x H)		

SA - 120D

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	250kg
Power Consumption	300W	Air volume	120CMM
Size	1080 x 1070 x 1165 mm (W x D x H)		

SA - 30MV -3

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	130kg
Power Consumption	225W	Air volume	30CMM
Size	540 x 612 x 1823 mm (W x D x H)		

SA - 60MV -3

Power	AC 230V ± 10% 50/60Hz 1 φ	Weight	220kg
Power Consumption	225W	Air volume	60CMM
Size	540 x 960 x 1823 mm (W x D x H)		

Doruko Shaving Knife factory Installation Case

APPLICATION

The electrostatic precipitator can be installed and used in industrial sites where fine dust and oil mist are generated. Cutting tools, fasteners, bolt nuts, metal processing, cutting, automobile parts production, etc.

- Main installations : Steak House, Barbecue Restaurants, Hotels, Coffee shops etc.
- Main installation companies : Doruco Co., Ltd., YG-1, POSCO, NSK, Daeil Innotek, LG Chem, etc.
- Main export countries : Absolvent(Europe), DRF Technology.Ltd.(India), Singapore, Australia, etc.
